

MainActivity.java

~~@Override~~

```
public class MainActivity extends AppCompatActivity {  
    protected void onCreate(Bundle savedInstanceState) {  
        super.onCreate(savedInstanceState);  
        setContentView(R.layout.activity_main);
```

```
        EditText emailID = findViewById(R.id.email);  
        Button sendEmail = findViewById(R.id.btnEmail);  
        Button goto = findViewById(R.id.btnGoto);
```

```
        sendEmail.setOnClickListener(() -> {
```

```
            Intent i = new Intent();
```

```
            i.setAction(Intent.ACTION_SENDTO);
```

```
            i.setData(Uri.parse("mailto: " + emailID.getText().toString()));
```

```
            startActivity(i);
```

```
        });
```

```
        goto.setOnClickListener(() -> {
```

```
            Intent i = new Intent(MainActivity.this,  
                MainActivity2.class);
```

```
            startActivity(i);
```

```
    });
```

```
}
```

Main Activity 2.java

```
public class MainActivity2 extends AppCompatActivity
```

```
{  
    protected void onCreate(Bundle savedInstanceState)
```

```
{  
        super.onCreate(savedInstanceState)
```

```
        get setContentView(R.layout.activity_main)
```

```
}
```
